This is giving me an opportunity to clear out a few matters.

The thing is we have these vain prophets who constantly saying about a pathetic repeating meme of "crashing economy" for years now, decades and centuries at large, because either they would like it to crash, or they buy all the fear mongering on the jews. Year after year, the economy is about to collapse, the world is about to end, WW3 is going to arrive at any time.

A part of this, sometimes, it's real and valid of a concern. But the majority of these things always tend to be bogus. Astrologically speaking, Uranus is now going in Taurus, which shows a modernization, and also change and possible reformation of the current financial status of this world. This can be for the better, or for the worse, but this influence will be upon this world for around 8 years.

The Entry of Uranus here happens around 2020, which is why many people are expecting some sort of change, which of course, most astrologers and most people are looking with suspicion or the usual paralyzing fear. When Uranus was entering Aries, people were also afraid of WW3, which indeed, was sometimes a possibility, but guess what, it didn't really happen. The answer here is that one cannot know for certain as the lives and existence of many is on the line and there is can be no answer directly here. As far as the spiritual aspect goes here our work is in line helping the situation of the world out and as always there is a juking out of where this so called 'system' is going. Uranus rules over unpredictability, but in general, Uranus also can help with revitalization and changing things for the better, not necessarily for the worst.

Predicting some bad event MAY happen in 8 years, is as if predicting it's going to rain once in Zimbabwe within the next 8 months. If it happens, then you are a prophet! If not, it's all fine - just prophesize again next tomorrow, and for the next thousands of days until it rains. And when it does actually happen, make it real loud and proclaim "My holy predictions were right!".

If you constantly buy on this jew hype, and you do not look at life and choices with defiance or at least some sense, you will be permanently a slave. The people who engage in this foolish mentality are clearly lacking spiritual insight and are spiritually blind.

Out of all these millions of so called 'predictions', only one is correct. And the only ones who really will know are those who are experienced in risk taking, or really deeply into finances, or otherwise, have other actual premonitions of these things, and not yet another alarm for every year or passing day. Every single month there is a report on the economy that is about to crash RIGHT NOW!

A specific type of born slaves and xian people are fetishistic around these events. They just wish their life will be ended by some sort of comet, or that the economy will drop and kill them. They have wet dreams on visions of people running and crawling in the government to give them a loaf of bread, and they fantasize that these situations are good for revolutions or social change. The reality is however, when humanity sinks on the level of seeking a molded loaf of bread, the majority is done, civilization starts sinking. Depending on the type of civilization, the sinking can be rapid and deadly.

The doomsday prophets fetishize even harder. Maybe finally the Lord will come to save them? Are we the Chosen on the Final Days? Have we Repented enough?

It's as if they want the economy destroyed so they can prove their shitty dreams or "predictions" correct. "I predicted this 100 different times and failed, but this time I was correct, obey the prophet of the lord! For he knew how to predict a collapse, but he didn't know shit on how to avert it or WTF to do during it".

Others do get paid to write lies in regards to said collapses, wars that won't happen, endless bogus crap, and constantly re-affirm on the goyim how futile, pointless, and impossible is any form existential ascent. Do not have children goyim, for your societies will go down anyway. Do not have a relationship goyim, for love dies. Do not breathe air goyim, for you will die anyway. Finding and competing for a job that is good for you and trying to build a future for yourself? Why bother? This system will enslave you!

It is of thine enemy the Pharisee, saith Rabbi Yeshua. It is rigged! The old laws of willpower, spirituality, and mastery, have all but perished! Woe to us, goyim.

They act like Jesus on the mount whining about his racial cousins (and covering for) the "Pharisees", their financial power and wealth.

This very same whiny behavior is also what is creating jews wealth and power since forever. For the rich jew, you need poor goyim to exist.

The reality is that on said events, there can be no real or actual prediction, except if one is very deep in the know.

Nobody really knows 'when' and 'if' an economy is going to crash. The economy can be kept going, and there are no factors to actually 'crash' it that are the given. We are not in 1929, and most people's brains are still stuck in 1929. The economy is so artificial and so globalized it doesn't just drop by coincidence anymore, and can be kept going. The thing that is consistent is bubbles, and what do we mean by bubbles? False and unfounded investments and money going to disappear into a black hole.

Other than that, we are not a Forex group, nor an investment firm to give you financial advice. Maybe the doomsayers can give you some advice such as in the bible: "Sell all your possessions, and follow the lord! For it's easier than a hob to reach heaven than the camel to go through the eye of the needle! Sell your homeless cart today, for it's the possession of a Gentile Sinner, and donate all 10 bucks from it to Jesus's Church so he can save you from the Pharisees and his racial cousins!".

If you want a personal statement, fuck what all these people who shit their pants say, and do what you have to do, as life involves risks. In the event that the economy dropped, your funds invested or not, wouldn't be in equally a good situation. You just have to be really careful in what you are investing, and making sure that any investment is realistic, and founded. Investments can fail, but this is like anything else, if you do not try, you will fail one hundred percent. If you do, you may actually succeed.

For example, the investment of a power generator costing 300\$ today, would be a far better investment than an investment done in a murky time or environment. Indeed, this power generator turns into a savior under different circumstances, better than Christ who can't heal the flu.

People who are generally losers or do not have skills to do particular things, make sure to raise giant walls for other people. A person sucks in love, they preach the failure and futility of love. The miserable are also the greatest all knowing you will ever meet. They KNOW everything, but with all this knowledge, they are still worthless. Pity to the stupid ones, like us, who do not have their mighty knowledge! For if we had their knowledge, we would also be...worthless.

Jews constantly lie of crashing economy so that no goyim invests or does anything in that regard. Prior to that they constantly said that when every goyim makes a fap, the world is going to end. "All is vanity, remain in shit forever, and await the Lord Savior!". "The End is Coming!". "It's already here!".

What does happen on so called 'economic collapses' also? Jews and others in the know, do profit. As others fall, so do others rise, and this is the nature of this system.

If economics are vanity, then why do the jews invest hardcore, build hardcore wealth, while the goyim are waiting for "Holy Collapse" and shitting in their own pumpers and pretending the holiness of broke "Christos", the wretched hero, on whose name was built the greatest and richest criminal mafia which would make all mafias of the history of the world pale and look like innocent children.

"Wars and Rumors of Wars", "Kikes spreading the rumors of kikes", is the statement here.

What you have to do is your personal responsibility, and so is any other choice in life. Below I am re-posting a sermon I have done on the subject:

Wealth: Jews Vs Gentiles

Mon Jul 10, 2017 10:00 pm High Priest Hoodedcobra666

I wanted to write something about this, to share some Truths known to all jews and the enemy, but these are vaguely known to any of others who are Cattle and "Goyim" by definition.

One thing we observe when we read this 2000-page book that is called the Bible (depending on the printing, normally has around 1500), we see some things that we can understand deeply. Excellent book to double speaks, lie, and always find something to justify just about everything from. "The Word of God". This "God" is a real weasel, but guess why? Because it's nothing but a jewish racial projection and nothing else. OF course, most teachings are NOT contained in the bible at all, which brings us into innumerable pages.

The Old Testament, is what the Jews favor and is their crown jewel. This is their "Torah", however in a greater Torah, they also have other books. The Torah is a body of teachings, not just the Old Testament, but the Old Testament is the core of the magickal book. To be swift and not brush of the point to readers, I'll get to the point.

This book named the Old Testament, is chock filled with:

Blessings of wealth without doing anything, also known as parasitism (Proverbs 10:22), prosperity, Scamming other nations after causing massive war for financial gain(Zechariah 14:14), even if people give financial benefits to the jews they are to be killed anyway (Exodus 11:5), advice how to give and take money, always telling jews to take care financially of other jews such as not charging any interest (Deuteronomy 23:19), financial advice (Psalm 112:5), financial relationships advice between members of the jewish tribe (Leviticus 25:35-37), showing how to scam the Non-Jews (Deuteronomy 23:19-20), how wealth belongs to the jewish 'god; and subsequently to the Jewish race (Haggai 2:8), how the jewish god gives wealth (Deuteronomy 8:18), advice on how to grow wealth (Proverbs 13:11), 'promises by god' to 'lend to nations' as a blessing (Deuteronomy 15:6), how you should take false oaths as a jew and never pay back debts (to Goyim - Ecclesiastes 5:5), the Jew is supposed to kill even those who housed them simply because those who housed them may be richer than the jews or make them work (Isaiah 19)...

This is a magickal spell book that has countless spells about prosperity for the jews, damning the prosperity of the Gentiles, creating impoverishment and profiting from it, taking the highest social position in Gentile lands (The whole story of Joseph in Genesis, the Jew who betrayed Egypt, includes all the above), how to marry to infiltrate and take over races and when not to (1 Kings 2:21), how the jews should always remain racially loyal and pure of blood and kill race traitors(1 Kings 2:24), and it even has all sorts of other things such as laws on how to lend money to Gentiles and to jews (Exodus 22:25), how your race-kin family and race are the most important thing in the world (Jeremiah 33:17-18), how you should NEVER believe in the Gods of the Gentiles (Exodus 20:3), how there is a STRICT social order that the jews need to follow in order to succeed, how they must always remember that their relation to their 'god' is racial (Leviticus 26:42). These are to name a few.

In the same book, that Christians worship, put their hands upon and take oaths, gloat and glorify, we have what is called the New Testament. This was written many thousands of years later for the gullible Goyim.

Jesus was a replacement, mimic jewish infiltrator deity, to hijack and replace the Pagan Gods. And preach the exact reverse in order to kill us all.

Now however, this part of the "Scripture" is for the Goyim, the Gentiles, the animals of the field. So, what this book writes is simple.

How supposedly "Wealth" is so AGAINST "Spirituality" (Matthew 6:24), how if you supposedly serve money you can't serve God (so leave this to the jews Goyim - Luke 16:13-15), How you should lend your ENEMIES -like the jews- (Luke 6:35), Curses for the Rich Gentiles (James 5:1- 6), How there is no race and how we are all equals to 'god', how you should always share what you have even when you don't have anything, how you should gloat over and eternally worship the jewish "God" while FROWNING and CURSING your own Gods and not worshipping them either (1 Corinthians 10:20-21), how you should give your money for the jews in churches even if you don't have to survive (Mark 12:41-44), how you should be against all wealth possessions because it's greed (Luke 12:15), how one should hate wealth since it's a "Jewish Thing" practiced by the Jewish Pharisees and never the Goyim should practice anything similar (Matthew 21:12), how the "Love of Money is the Root of all Evil" (1 Timothy 6:10), wealth is destructive (1 Timothy 6:9), how you need to sell your possessions to follow a fictitious rabbi that never existed (Matthew 19:21), how you need to give up thoughts of survival and managing or amassing any amount of wealth whatsoever (Matthew 6:19-20), how you need to leave and desert your family (Luke 14:26), how you need to get USED TO BEING SCAMMED and BE ROBBED (Luke 6:30), how you should give not a fuck about any social order and only trust Jesus Christ as "Authority" (Galatians 3:28), the earth nor the planet matters one dime neither anything else does (Daniel 4:35), how you need to hate and abhor wealth because it won't get you to "heaven"(Matthew 19:24), how you should cherish disease illness and pestilence because it's bringing you closer to heaven (Psalms 34:19), it's good to die from hunger pestilence or illness if that makes you obey the jewish 'god' (2 Corinthians 1:8-11), all Rich non-Jews have to be financially destroyed (Revelation 3:17), how you will suffer in eternal hell-fire for not following the "Master Rabbi" and so forth...

Rabbi Jesus (Matthew 1:1 - Hebrews 7:14, etc etc) did the greatest attainment for his racial comrades. It taught all the Goyim of the world slave values, and proto-communism. [...]

As for Christians who CAUSED all of this by their beliefs, work, christian pseudo culture, 'merciful attitude', serving the jews, believing in their god, accepting a jew as their 'savior', giving their psychic energy to the jewish programs, and accepting a reality of being robbed by the jews as 'given and good' that's all I have to say:

"Even as fools walk along the road, they lack sense and show everyone how stupid they are." - Ecclesiastes 10:3
