

Darkness and Light

A few people ask things like... So what, Satanism is about light now? Isn't it the Emo, Ghoulish thing that the jews have dictated for centuries no more? Am I no longer allowed to drink cups of blood, and hail "Jehova", while somehow claiming I am a "Satanist"? To just pin my racially jewish tribal paranoia, in Satan's back?

Can I no longer partake into this useful meme, that was generated by jews, to trap the radical and mistrusted followers of their own, christian, jewish created program? And to drive the sheep back to the stable by careful calculation?

Is "muh" jewish drama, and "muh" tendency to atrocity, not pinned in the back of the scapegoat of Satan anymore? Is the day where all the jewish crimes were magically pinned on Satan, just over, same as all the world's perils? Has that frontier of always blaming Satan, been lost?

"Now who is going to get the blame! The jew is blameless! The God of the Goyim has to get all the blame, even for what we, the blameless JEWS have done! If he doesn't come quickly, oy vey!!! We will collapse under the weight of our own crimes, guilt, and fortune! We will be named straight and up: "Jesus, Jehova, and his accursed jewish Race", will the goyim shout!!"

Now, how can a rabbi based on stolen Pagan identity, claim to be good, while it's just a murderer? How can the aggressor survive without its scapegoat? And if the false polarization doesn't exist anymore. And has been proven counterfeit... How will the lie continue?

Did Satan have an opportunity to *actually* speak, and plead *not guilty* for what the followers of the tribal god Jehova, and an imaginary Rabbi named "Jesus", plus their junkie reverse-followers have committed? In the acts of the greater spirit of 'destroying god' as instructed in the protocols of Zion? Destroying the "Ha-Satan", the "Adversary" of the jewish people.

Has Azazel stopped being the jewish scapegoat for all things jewish, perverted and murderous, such as he is cursed and condemned by jews to be in their racial celebration of the Yom Kippur? Have finally the Pre-Christian, Pagan, Gods, had their name cleaned of this heap of excrement, at least to a decent extent?

Are the days where bowing to jews and becoming their slave in an anti-christian context, that pushes christianity from the backdoor, over? Is the "Satanist" now against all these ordained rules that were hijacked into "Satanism" by the jews?

Are "Satanists" no longer jews? Did jews for ONCE more, be blotted out and revealed once again for following their own Racial excrement, under yet another

pretext to shield them. Like always. And try to mask the *OBVIOUS*? Which they have covered up by the false pretence of "Satanism"?

Do we finally see Judaism in plain sight...Which it was all along? Because all I see is jewish letters, jewish mysticism, jewish kabal, the best friends of the church, the supporters of its backbone, in the expense of Satan's name. A name stolen from Sanskrit and the Far East. To be perverted and blamed for all the world's perils...Out of nowhere.

"A Satanist". And all one does, is what? Defame Satan. Fill the ranks of his enemies. And make sure their supposed 'enemy' always has plenty of ignoramus, fools and idiots hoarding into their ranks. By them playing the bad boogieman. That they are supposed to play, ordained by whom again? The (((Root of it all))).

Has Satanism finally recovered from the thing the jews made it to be? In order to cover a deeper Truth about Satanism?

The answer to all of the above, is *yes*.

This time has come, and it has passed us. Because well, the jews will always be discovered and must always be put at their place. How long can "Satan" be hidden?

The time where jews had full dictation on the cultural norms of Gentiles is over-with.

So what now? Is Satanism about light? Or darkness? Can I be Mister Emo, or can I be miss Rainbow?

Light or Darkness? Which "ONE".

Because as we all know, the vain division only again, came with jews. In the bible. The light jew is the good jew, the Rabbi Christ. And then we have the dark jew, the anti-christian, or you name it. The other Rabbi. So the real question is, why give in to false, and irrelevant conceptions?

The answer is fairly simple.

To look into the eternal and omnipotent darkness that envelopes existence. And is all-powerful. We need a light. Unless we have a light, unless we can comprehend what we see. And 'enlighten it'. We will never understand, contemplate, and absorb the darkness in reality. We will remain oblivious.

Therefore, all these jewish ghouls do not speak about any real 'darkness', let alone with any respect. They are speaking of complete deprivation of knowledge and respect of darkness. They are speaking about lack of light, lack of power.

To lack light is to lack darkness...And to have light is to have the power over darkness. And to learn to respect it. Otherwise one is just mortally blind and

oblivious. No matter what one says, one cannot understand the ever-powerful darkness, without light. And essentially it's through light that one grows power in the darkness.

"Light is Power", Lilith.

"Darkness is Light Turned inside out" – Beelzebub

Satan is the Darkness, because Satan is all-encompassing, all powerful Light. He is Lucifer, the Lord of Darkness.
