"Oneness" is a concept for the Soul that has connected Ida and Pingala. Oneness does not imply "Race Mixing", "Cultural Oneness", or accepting the Jews as universal saviors, and accepting the "One and Only" BordAllah or Rabbi Emmanuel Jewsus Krayst. Oneness does not imply "One World Government", or does give ANY justification for slavery of all under "One". Oneness doesn't imply Communism ("Equality" and flattening on the political level and individual life) either. Oneness does not imply there must be only one type of heritage, "God" or Nationality.

This also has nothing to do with "Equality". The reasons why are easily self-observed by anyone with a pair of eyes and a brain that functions.

Oneness is just a spiritual concept that has to do with how the whole universe is in relationship with the whole in itself. "Oneness" can only be explained as "Wholeness" in these lower levels. One Race is a "Whole". A "Whole" can have the same culture, the same beliefs, the same system, the same religion and the list goes. Mixing "Wholes" is not "Oneness". For something to be a "Whole", there have to be the same "members" of the same "kind" in it. The same goes for instance for all your cells that constitute your body, for instance. If these were uneven, problems arise. Cells are not "equal" and they are not the "same", however they create (in desirable situations) a healthy and happy whole.

Like Karma and all other spiritual concepts, the jews are reeking these over in society to misguide the "Goyim" into thinking that the actions of the jews, their ideas and their depravity are somehow backed up by universal rules. The same goes for their pseudo-dualism. "Satan cannot exist without "God" and the rest of the garbage. "God" if anything cannot exist without Satan, because he was made thousands of years after Paganism, only so the jews can have an enemy. Satan did exist thousands upon thousands of years before they even existed, and Satan will forever exist after even everything is said and done on this so-called "Planet" with its fancy beliefs of nowadays. The same goes for Satanism, which

as the enemy openly states as well, existed long before the Abrahamic Programs.

It's desired and wanted by the Gods that Humanity does not fall on this disease and wrongdoing, and that we fight back, however. The Gods fight for this too, so we can be saved.

In the same way any animal gets rid of unwelcome fleas, in the same way some things have to be removed. In the same way there are "natural enemies" and "natural antagonism" in all-Natural species, the same is the case with the "Jews" and the Gentiles. There is no "Oneness" in that sense. "Oneness" is just the first and most primal state of "Existence" upon which everything is on "Square one". Oneness is just the natural law that all "Creation" is connected in some way, and this is the Aether and spiritual, this is the understanding of "Non-Duality" in Yoga, when one understands the creative way of fusion of male and female.

This is not enemy garbage of "Oneness" as one can readily see in nature, nature intends division in the same way it wants "connections", or it severs these. For instance, bodies of humans are separate. You are not "One" with your table or desk, and you are happy when you are not "One" with some deadly virus or cancer. "One" can only happen in consciousness, and is a concept that has been bastardized.

There is no evolution or de-evolution here, and absolute "Nothingness" if we can say this, in this "level". There is only potentiality. This is the same as sperm. Sperm is useless, unless it is fertilized. It carries information and power, but if it's not fertilized, then it becomes nothing worthwhile. This is why Satan's Number is 2 and 11 and not "One" as the enemy "Oneness" garbage preaches. One evolves and becomes a worthwhile being that advances and expands after they are born, they grow up, and advance from this "Potentiality" into something decent. This is the way of the Cosmos and not the reverse. The enemy is preaching this crap in reverse, in order to get people to regress back to a prior stage of existence.

"Oneness" is also behind "Race Mixing", "Globalization" and everything else. These have nothing to do with the spiritual/natural concept, and they are just bluffs to deceive the blind Goyim slaves. Race Mixing is the degeneration of Nature's blueprints into a more primitive and "same" state, where there is actually a backwards movement from natural evolution. It's de-evolving incarnations to engage into this practice.

This if recurs over too many generations, all humans on earth will become completely "One Humanity" with the baseline of everything set as low as ever

before, since all original blueprints deteriorate accordingly from admixture. Both the "lower" and the "higher" too deteriorate.

Then we have the notion of "Peace" the enemy talks about all the time. "Peace" can only come from when someone is safe and sound, and in this natural environment, there is always warfare, more or less obvious. One can only be safe within their "Own", be this the family, or the "Whole" they belong to, or any other unit that protects all members, etc. This is why the enemy has forced people into herds and accepting social hoaxes such as "Christianity".

This is exploitation of this rule of life. Peace can never come without power. While for everyone else "peace" means pacification, marijuana, deadly beliefs such as "nonviolence" and all this garbage, the jews are waging relentless, visibly or not visible warfare to undermine everyone.

One needs to look no further than "Islam" who always talks about "Peace". Then "Pieces" the way out of everybody. Peace when the enemy speaks of this, means pacification, living in one's fake bubble, ignoring reality, and disregarding all meaning and purpose bestowed by nature.

All Human beings like peace, because peace is a beautiful and welcome state in which life can advance, evolve and flourish. The enemy wants none of this for their enemies. Peace is also a spiritual concept, and peace is attained when one flushes out their negative Karma and mental problems, through meditation, and they achieve enlightenment. Which literally means, the filling of the Soul with light. This manifests into mental serenity, clearness of thought, and an elevated state of existence where one is no longer bothered by the problems of a disobedient and problematic "mind".

The enemy loves "war" and they are warmongers, but because they are few and they are afraid of straight-up warfare (or being revealed to Gentiles), they just blind others with "Peace" so they can exploit them while they roam undisturbed. There are actual passages in the bible, where all "Nations" of Gentiles, do all revolt and attack Israel together. They know this is a grave danger for their agenda, as every one of the Gentiles is extremely exploited.

"Multiculturalism" and all the other trends the enemy forces upon Humanity, looking to gradually weaken its livestock down beyond the level of retardation, are many times based on pseudo-philosophical and pseudo-spiritual concepts, which the enemy bases off on the spiritual ignorance of the masses, caused to them by the programs that the jews created.

The jews literally curse all of Humanity with rituals and blood sacrifice in the Hebrew "Bible", in order that all Souls will remain without any "peace" or "light"

whatsoever. Since spirit is matter and matter is spirit, they also take physical actions such as causing wars, fanning ignorance, promoting death etc. They curse everything and damn everything. The same goes for knowledge, life necessities, undermining of civilization and everything else that makes life worthwhile and possible.

The climax of this hatred is when they curse Satan, which as we all here know is the Father of Humanity, Truth and also, relates to the Serpent which is the advanced genetic blueprint Satan implanted in Humanity, so that we can advance and evolve throughout our whole existence.

None of these concepts are spiritual, or based into "Spirituality", or Truth, in any way, shape or form. Truth can only mean life, and the best for life, and these are deadly and all are in tune with death, desolation, destruction and degeneration of Human life, all of which are against Nature's Will.
