

# The Future

HP Hooded Cobra 666

[July 29, 2016](#)

Greetings to all our Satanic People and Comrades.

This message is very serious. Those who undermine its importance, will only see this later in the years to understand it.

I have kept saying again and again, that we are in this against time. Many people may not understand the intention or our teaching, and will have a hard time ingesting what is going on. However, people at the same time wake up massively. The walking dead zombies, who are sucking from the jewish tit, will unavoidably clash with the people who are waking up to this danger. What is what will be revealed blatantly in the future, for better or for worse.

There is a storm brewing, and if one raises "above the clouds" of their small and personal life, they will see this. This doesn't mean anything negative or positive in itself. Storms are not peaceful, that is for sure. There will be much friction involved on many levels.

While people are living their daily life, vacations, and live their actual circle of life, the enemy is preparing and brewing other things. Many of which people never really notice. Everything is hidden from sight, until the problem, like a deadly blade that was ignored has went to deeply. Like a deadly disease, only when it has grown too deep the symptoms do show up.

The enemy is doing the same now. With the tech they possess and everything, and how everyone else is in "Deep sleep", the enemy is trying their best to plant seeds into the subconscious and unconscious mind of Humanity. Much of this has been prepared decades ago, through movies, brainwashing, "Expectations", "bible" etc. These "expectations" which many people see as "god's plan" are actually brewing and the enemy feeds them to manifest them. Successfully or not, that's another case. Thing is, they try. Because nobody else does that, or people don't bother to spiritually counter attack (or even KNOW how) the enemy has success. If people fought back, the enemy would crumble on the ground.

Humanity is at this point going down a very dim road. The jewish infection has went deep, and it will need to be cured radically. The jews have stacked the deck against humanity, and the average person. The deck is simple. Keep the Goyim sleeping spiritually and in all ways until the necessary technology and powers exist, to wipe them out and enslave them, then take over the world as an undisputed power. Those who are watching and seeing along the lines, can see this. The jews themselves openly admit it and I have gone with this in depth. Where serious technology is involved, numbers, wills and anything else doesn't really matter. The same goes for the massive robbing of freedoms. (((Mark Zuckerberg))) and other obvious and non-obvious jews, do possess dangerous means that can enslave the planet. Here and now.

Without wanting to go into many, and potentially scary details, I want to tell people what has been revealed by Satan. This is nothing new, but added information. The reason I keep talking about technology is because there is something more into it. The jews aren't investing into all of this for no reason. Many of the things they do are complete bluffs, and they are playing on many

places on the same time. Our RTR's are undermining, destroying and sealing their fate.

If these stop, Humanity is doomed. The enemy must not have the first say in technology. People recently saw what this "Pokemon Go" thing did. This in itself is a show of how much people are willing to be brainwashed and they will give up all their rights in being tracked and everywhere else, only to have fun. Take it from my other replies about the "digital worlds" and "VR Glasses" and anything else. Multiply it accordingly.

Add nanobots, and all these technologies that are emerging and will emerge, then understand the simple thing: If these are on the hands of jews and they are not destroyed up until a time, Humanity will have a real bad time. The enemy in their "Texts" mentions of a paradisaal land. They promise the same shit to the "Goyim", but this is only to bluff them. They are the ones that will enjoy the power and anything else of these machines. Take Facebook for instance. While little you can scout on your friends, or whomever, the kike Zuckerberg can spy on all people on Earth. They get you to agree with their terms because, you want the power to scout on your friends. In exchange, they get power to monitor and spy on everyone.

Tesla refused openly to advance technology further up until a point, because he knew, humanity was not on this particular level at his time and era. Right now, it still, isn't. The fact that a monkey can use a cellphone, doesn't make a cellphone a thing a monkey should use.

Anyone that loves the Aquarian future, technology and wants for a good future of Humanity, but has a decent mind to understand the potential of where this can end, they will understand why this message is as that.

Satan and the Gods take the chance to tell people \*NOW\* and to push everyone to action \*NOW\*. The Gods are with us and the Gods are helping us. We have powers on our side that can shake the planet and then furthermore.

I don't say that to sound like a doomsday preacher, but this is how it is going to go. The moment our pressure is left up, the enemy will be freely and undisputed the victor in this war. They have no other enemy but us. Everyone else that professes "disagreement" with them can easily be dealt with, as these people do not have any spiritual power. Our persistence and our warfare can and will turn this around.

I will also not go into any details, as I know the graphic imagery and many other things will scare people to the death. This is beyond shocking, and the enemy plans shit "normal" or sane people, will never even imagine.

Take George Orwell's 1984. Multiply this by hundreds of times.

This is what the enemy is planning. They are making sure enough time is wasted, until past generations like those in their 40's, 50's and 60's are wiped out, because these are the people that know how life is in reality. The same goes for the elderly. These people have known war, work, soil, real sex, relations, natural living (to a degree), and pretty much what life is about. The enemy sees natural and sane people as enemies to their agenda, that is a multicultural, techno party of spiral downwards under-evolution. For all other "new" generations, many people are living in the fakest of bubbles, that the enemy has created.

These newer generations are very easily manipulated, and they are forced into digitalism since infancy and they haven't fought for any rights to understand their deadly importance. This will keep escalating on the future, but the obstacles are the sane, healthy and elder people who realize the dangers and uselessness behind all this surveillance and anything else.

The privileged ones of these "newer generations" will write history for better or for worse. The enemy pushes these generations to be poisoned, weak, docile, tech-slaves, multicultural garbage, defy nations, states, borders, that have absolutely no connection to life or how it operates in reality, how a living is made, or how anything works in reality. These will be easily malleable and ready to become slaves in the hands of the jews. This process has gradually begun since the end of WW2.

The enemy is passing new "normal" into the heads and new generations of people, that have been opening them up in multiplies of insanity, in which the "elder generations" couldn't even understand. We don't speak of "sex boom" or anything like this, we speak about stuff like having a digital girlfriend instead of a real one, or a digital house instead of a physical one, digital coins instead of money in one's pocket. This will keep going until the final generations will, basically, become slaves.

This is gradual and a systematic process, that happens worldwide in gradual steps. The enemy always wanted to hasten this and finish with this "Goyim planet", and rule over everyone quickly. The practices used are similar ones like in the past (such as merciless use of drugs), but the end result will be even worse if the enemy makes their way. The means do exist, and will exist, that will make this far worse.

People who can see along the lines, with some imagination just in between, will understand that this is not "progression", but the actual downfall and degeneration of society in the deepest level. This must be changed.

IN our hands rest the means and powers that all the Ancient people possessed in order to fight and resist all these things. We possess the highest weapons of wisdom and these have to do with spirituality.

Whomever doesn't act on, spread on, and enlighten on the knowledge we possess, is literally affirming a \*YES\* into the destruction and eternal slavery of Humanity.

### **What Future do you want?**

A Future of slavery, a technological nightmare?

Or an Aquarian, Spiritual future, upon which Humanity- free from jewish paranoia, reaches once again the highest pinnacles of knowledge, civilization and existence?

**The Future is not set in stone.**

**The Future is in your hands.**
