

Warriors and Builders

HP Hooded Cobra 666

[Mar 30, 2015](#)

The Gods of Hell do protect us. If you want to somehow help other Satanists, you can direct protective energy every day to the Powers of Hell, Satan and Lilith. They will sublimate this energy to the brother/sister in need. You can also RAISE yourself and send this. Trying to somehow drain others and so forth will never work. Satanism isn't about being carried off by others like a flea on the back, but co-operating with others, in equal terms and so forth. Parasites, lazy drones and so forth will cause the stronger ones to draw the pesticide to say the least. Satan has accepted you and you are strong enough for that. A strong whole becomes as such by strong persons. Parasites, fearful idiots, weaklings by choice that choose to never meditate and try to act like parasites, they are of no importance to me or Satan. They are of importance to nobody, not even themselves. In Satanism, everyone raises a Stone and this is how we build empires. The ones who can will raise the boulders, others will drag the sand, others will make the food, others will protect and so forth.

From there, there are many things you can do, to protect yourself and others:

1. Send energy to Satan and Lilith, so they will direct it to those in dire need.
2. Raise energy to help others who are being attacked. [Algiz, Suryae etc.]
3. Become very strong yourself and with others as strong as you start building the necessary conditions so others can exist. This involves physical things as well. Building, creating.

Now, if you sense something is about to come that you are unaware, you can call in the Gods. The Gods sublimate energy we send them to protect us and to destroy the enemy as well.

Nobody wants a mental and spiritual parasite hanging around or some lazy asshole that demands energy for whatever reason, no different than the reptilian collective "jhvh" who sit there and demands people killed. This so called "god" has his hands bathed in the blood of countless innocent beings. While Satan understands our problems and grants our requests, it's fundamental to give back. Giving back to Satan means giving back to Humanity and Yourselves. The Gods do not "need" anything. We just need them. They are fighting to build a world of justice, where people will not be diseased or starved and that will live on the level of the Gods without any restriction, as conscious beings that are free. The fact that you are not bred in a farm, that you have a family, that you have a job, some freedoms, more or less wealth and so forth, these are all up to the Gods and

certain people who fought for these things, back in these gloomy jew-ruled ages. People tend to forget this and the enemy knows this. Countless have sacrificed their lives, went out in the streets and fought wars so we can be where we are today. Is it perfect? No. Though it's a hundred times better than the conditions back then in the Middle Ages for instance. People were actually bred as in chickens in the Middle Ages. Disobedient chickens were endlessly tortured and then put to death. There was no "opinion", no "free speech", nothing of these things we know today. And the enemy wouldn't be hesitant at all to steal these from people again and again. Even daring to disbelieve or criticize was a death penalty. Science was a crime. Thought was a criminal offense. This "god" of theirs is so afraid, is hiding behind weapons, so murderous, a pure slaver. What a pathetic "god" would guide his followers to kill all cats and then, 1/3rd of European Population would die due to Bubonic Plague? So much for the love of "god"?

You do not need to force yourself, other than DOING WHAT YOU CAN. This is a major thing. We have to do just what we can. You can meditate for 15 minutes? You do this. You can become stronger? You do this. You strive towards something greater. Not caring and not trying, this is identical to having a parasite and weakling inside a coven. 11 very strong people and two weaklings and the coven will fail. A person who is a parasite and let he yet calls others to somehow "work" with them, this is at the very least hypocritical. Other people come at random in the groups and cry that others should send them energy or pray for them. This is not xianity. This "prayer" of xianity is nothing but a lie. Prayer in Satanism is Telepathic Communication and Magick/Meditation. They are lazy, ask ask ask, take take take and give nothing back. Satan has stated such people are of no importance to Him. They are on their own and all this could possibly entail, in this life and in their existence. If you supposedly want to help other Brothers and Sisters in Satan, draining and trying to do such shit will not do anything, nothing also will do crying, whining and what "if's", complaints, tears and shit. The enemy teaches people this attitude so they will never actually make any progress in existing. Yes, we are humans and we experience all these things. We shouldn't damn them. But these things are to show us a direction to go, to better ourselves and the whole. This is not how you build a life, your life, or a Greater Satanic World. You build this by building, searching, caring, doing, seeking, destroying, creating, living, existing.

If some people want so badly to complain because they aren't fake Disney \$\$\$ princesses (after all they were supposed to be, anyone should be a princess), or because Nordic Aliens didn't show up in their first week of meditation so they can make them millions of dollars so they can live their jewish mindset, oh my, something must be so wrong. Some simply do whine about not being Gods actually or having their every damn wish granted. Most of your wishes are

created by this society. Many things are lost along the way and have been replaced by perversions or marketing. Those living in America's consumerism might have a hard time to understand this. This isn't different than other places of the world, as this is the country the enemy tries to take over to push these things. They bring everything to the unnatural extreme. America is the land of the free and guess what, this pisses off the jews. They do not like it. They want to rule it and take it over, while using America to do as they see fit to weaker states. The enemy doesn't like freedom. They do not like public libraries, intellectual pursuit for the goy, they don't even like that people go to school. If they can't do something about it, this is a whole another matter. The enemy has done this and if circumstances could assist, they would do this again immediately.

The enemy has lied to you, really bad and real hard- right in the face. You do not know who you are and what you want unless you deprogram yourself. As always, they sell people bullshit to make them unhappy. You must be strong in all levels, moreso in the physical one as well. And maybe even be ruthless. You must have, own, be everything you can. This is how empires are built. The enemy has gained what they have down here, because of endless dishonest work, lies, deceit, but also, spiritual effort. Their retarded and eternally accursed ET friends have worked their ass too. Many have become meat in the process, but who cares, so long they fulfill their purposes. Every kike down to the last one has worked their ass. They worked like wheels on a train to get the train where they thought it should be. Those who study history know this is a work of centuries upon centuries. And people whine when only in few years, we have been hitting the enemy so hard? This is unacceptable! They are definitely terrified to no end. We are stealing history right from their nasty hands.

topic8549.html

And we will keep strong until the end and then even further. This world must be saved. The Gods are giving a great war and so are our people. We are in times of war, not in times of peace. This must be comprehended. When the last of these degraded filths is brought down and this Humanity can live without this bullshit slavery and torture, then we can say peace has dawned. Until then, we fight, fight, fight, destroy, destroy, destroy, create, create, create and then create again.

Give a reason to yourself first and then meditate faithfully. Satan keeps his promise. From closely a decade in Satanism, I can guarantee you this and so do many others. Patience is mandatory. To even half-awake from this slumber of centuries, this destruction, it takes time. Yes, something is wrong. And this is Humanity and the way people see things, thanks to the jew. Something is wrong in this endless egotism and stupidity. This personal vanity of mortals who simply

consume all their environment to simply become rot and do it again, is definitely "ungodly" and this is Abrahamism, this is the enemy. The enemy has told people to fear "god". Satan is God and you must open your Soul and mind to Satan, who has been shedding life and light to all of us since we began existing. Something is wrong in the people not having faith in themselves and in that they can achieve and conquer all this darkness that is eating Humanity's Soul. Nevertheless, the Gods are always there. People are too blind to understand and to appreciate this. You here are not blind, you here can see Satan's light.

Others in this universe have perished under the enemy and they are helpless, without a hope, living in such farms and so forth. People died in street protests for what we today consider so "normal", because they were being exploited to shreds. You must read history as the enemy makes sure to always erase the past. If you think exploitation, lack of freedoms and everything else is too distant, you seriously need to wake up. These things are being under attack by the abrahamics, who consider themselves above any and all Human rights. Even in other countries than the developed ones, women are getting stoned for loving someone (or even because someone SUSPECTS they LOOKED at someone), people live in communism and if they get payed, they get paid with a loaf of bread, to live in a small apartment with other 20 people, children die to diseases long forgotten in other parts of the world. At the same time, children are working to death and have to cut their limbs due to working in shithole factories. THIS IS THE REALITY THE JEWS CREATED BY THEIR ENDLESS MAGICK, THEIR ENDLESS "SPELLS", THEIR "BELIEF SYSTEMS", THEIR "GOD" AND THE RELATED FILTH THEY TRY TO PUSH OBNOXIOUSLY TO GENTILES. THIS IS HOW "REALITY" IS MADE ON THE HIGHER LEVEL, WHILE THIS LEVEL IS WHERE WE ACT AS WELL. All those who know of Occultism do know that this is how reality is created. Thought predates action. And some people whine and cry over an attack or breaking a fingernail, or not living disney after they have dedicated to Satan. Well, Satanism is about living life Truly and becoming a God. Satanism is about reaching the highest elevation and elevating yourself. YOU WILL ADVANCE AND YOU WILL BECOME THE HIGHEST BEING YOU CAN BECOME, THAT'S SATANISM. That's the purpose. To ever become, to ever evolve. Not to stay stuck in this loophole of endless destruction the enemy has created, that leads a Soul to nowhere.

"Caring" doesn't mean "I tie in negativity" or that "I exhaust myself" or whatever else. It hasn't had to do with any slave-live caring, or caring for things that you shouldn't. This is the enemy. This is how the enemy "cares". In the most fake, the most perverted, the sickest nature, that in the end, reinforces the destruction. They sit there and gloom over the bad, the ugly and the wrong that they create and they are dependent upon. These fake "religions" could never survive in a healthy reality with happy people. They thrive and survive in misery, pain,

affliction, disease and lack of knowledge. In Satanism we care in the healthy manner. When we shouldn't care, we do not care. Satanism is about health, positivity, freedom, beauty etc. You do not need to destroy your mind over such matters, but simply know. For most things, knowing and being aware is enough. Knowledge creates awareness. One becomes aware and defends these things. And we can defend these things. If people are fast asleep, one sweet day these things are stolen from people and nothing exists anymore.

A God is higher than a King, even if they are Kings. They are the highest attainment of existing. A God can have nothing and feel as if they own the universe itself, and then more. Those who are spiritually aware know exactly what I have stated and the depth of this meaning. Others know subconsciously but this will take a while until it comes to them. It will and you must carry on. Many people are born as they are, without the chance to advance to any direction, live and above all exist in any acceptable level. THIS IS THE ENEMY, CAGING AND DESTROYING HUMANITY. The judaic system will not allow them to even breathe freely. You have to, like a soldier, stand proud and the strongest you can be on YOURSELF first. You have to be patient, strong, fearless, obedient in the Warrior sense and that of the Student, yet critical and with your consciousness woken up. For the new members, you will understand down the road exactly what is meant here. You will understand the Truth the enemy tries to hide.

Now there are idiots who say they should sit back and do nothing. Since such idiots still exist, that, you know, who cares, if Animals suffer, the Earth is getting polluted, freedoms are being lost. All they care about is them. They can't see further, so who cares. Who cares if the Gods are being attacked, Humanity suffers, innocents suffer, right? Seeing the kikes looting, raping and enslaving the whole planet, then congratulations to these people. They surely are the most loyal of the judaic slaves. Perfect slaves. Not giving a fuck. The perfect victim. Letting the enemy do as they see fit. Alone and helpless, purposeless. A bounty ready to be stolen and seized by these predators. You win the trophy of being a worthless piece of shit that literally doesn't give a fuck about anything, not even its own self, that should be a cucumber and not a man. In fact, a cucumber cannot even be a slave. These people are worse than a vegetable. They have been created into exactly what benefits the judaic status quo to exist. The perfect slave.

Those who have been exposed to the Truth can only either totally and unconditionally follow (and these are Satan's chosen) and will become Gods. For you, our faithful warriors, there is nothing I can utter that you are worthy of, nothing that matches the height of a Soul that fights as such. Not stars, not towns, not gold, not a thing, and all these things. You deserve to stand and so

shall stand, besides the Throne of the Great One. By unconditionally and totally, this means that the Truth must be defended, the same for Freedom of Speech, our Nations and so forth, without any step back. It means that you do not step back from these things.

Approach the Gods and open your heart and mind to them, in a healthy manner. If you are really willing to understand them and experience their miracles, you will live things that most can only imagine. Those who get help from Satan and are close to Him, and their Guardian Demons, can relate exactly to what I state. We all more or less have felt their Providence and Love towards us. Open your minds to Satan and you will understand that Satanism is about something far greater than our present-day comprehension. It's about a new Man, a new Person and as thus, a New World.

What the enemy has failed to understand, is that for us, there are only two ways: We either live with our head and spine upright, or we choose to not live at all. The enemy does not know, and never will know, the fearless spirit of the Gods and their Daughters and Sons. What can the filthy enemy understand of the heart of a Satanic Warrior and a Satanic Builder?
