

Notice About Potential Site Downtimes

HP Hooded Cobra 666

July 16, 2019

Greetings to all of our brothers and sisters,

Due to the fact that some IP's of servers have been blacklisted and some other issues which are reducing access to the sites, we are doing an update to ensure uninterrupted service and access to the sites.

Normally this update will go over all of our main sites, it's already finalized for Joyofsatan.org as of current.

If the forums experience some downtime, there is also no cause of alarm or concern.

This is done to ensure that everyone has access and can enter the forums from all over the world.

Thanks to everyone for reading
