

# Why the Ego?

The RHP and New Agers rant and rant about the Ego and how it is the problem, and how one is supposed to overcome and get rid of the Ego.

If one reads the ancient Pagan texts, they make a difference between the false ego and the actual ego. They state the ego is one's own consciousness. It's not about getting rid of the ego. The Ahamkara, which is the false ego, is the stored impressions in the mind and soul that form incorrect perceptions of one's self and reality. Have you ever liked a band years ago only to wonder what you were thinking today? That is how that works. The Atman, or true self, is also called the super conscious state that arrives after opening up the mind and soul by raising the serpent of Satan in the ancient texts. This occurs slowly over time with spiritual practices like peeling an onion.

The ancient texts stated you don't get rid of the ego; you simply perfect it and expand its awareness to a super conscious level.

The RHP programs want to break you down so they can then control you with the supra ego of the bible which they want to replace your brain with. Just read about life in a nunnery where they have total control over a person's life. The tactics they use include vegan diets, extreme fasting, and all kinds of physical, sexual and mental abuse. That is why the Catholic Church allows the regime of child sexual abuse. They know it makes a person unstable and traumatized, and it also creates a mentally ill dependency on the Church where they feel a love for their abusers and the organization they represent.

The RHP whines that Satan represents the EGO and that is why Satan is bad. Why is your own soul consciousness a bad thing? Unless it's an obstacle to some freak wanting to have total control over you and make you their property. And that is what it all comes down to. The RHP ideology of Christianity-Islam is the Jewish program of turning the Gentiles into abused slave property of the Jewish race.

This is why Satan's great "crime" in the judeo-Xian-islam program was refusing to bow down. However, if you look deeper and understand the terminology of Judaism, Satan's great "crime" was refusing to bow to the Jewish Race specifically. That is openly stated in the Torah. That is why anyone who opposes the Jews are called "Satans" in Judaism.

"Don't want to bow down Goyim? It must be that Satanic ego of yours. Our Bible is supposed to get rid of dat there problem, Oy Vey!"

The Jews, as Bobby Fisher, a Jew himself stated, feel a tremendous hatred and burning murderous rage for anything or anyone they can't control. He mentioned that is the reason why Jews hate nature so much, and love to rape the environment and ruin it with pollution with the global corporations they own. They hate it because they can't control it. Their resentment and resentful rage is also the reason they hate Satan. They know that Satan is a real and living God and the God of this planet and the Gentiles. The Jews also know they are nothing but would-be false gods of this planet. This causes them psychotic hatred of Satan and the Gentiles, and is also why they seek to destroy Gentiles on any level. They are trying to become the false gods of this world out of their hatefulness. The Jews are an ugly and evil alien soul that hates the naturally good and beautiful. Because they are ugly and alien.

*Alexander wrote:*

Hinduism and also Buddhism i think and some other eastern religions say that Atman is Brahman, the essential nature of our consciousness is the essential nature of the universe, they are one and the same. Do you agree with this?

Depends as some schools state this relates to losing one's own ego and becoming a zombie with an empty smile. However, the original texts state the personality remains intact but the awareness of the individual now goes beyond the common idea of mind.
